Case

JobTech - Enhance job seeking via visualisation

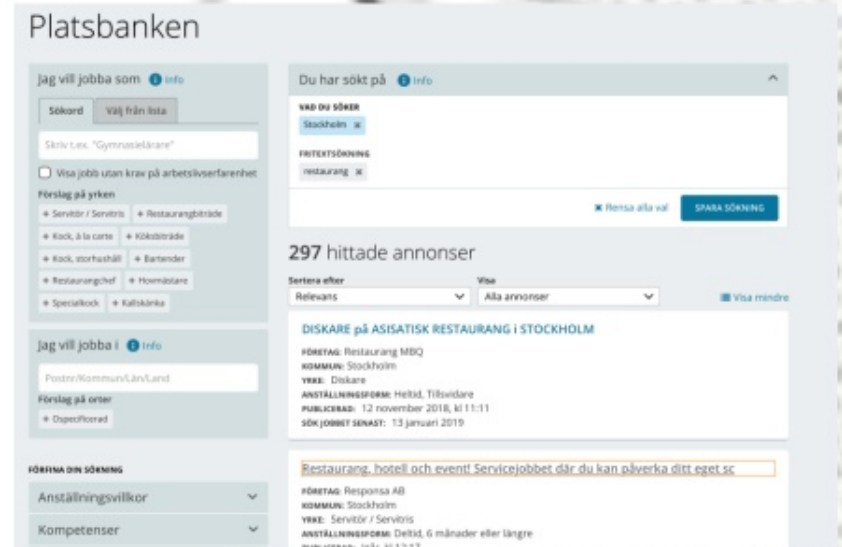

Problem

**Our
Vision**

Problem

- Text-based job ads are problematic and tiresome
- Exploring the labour market has never been as unappealing
- Platsbanken lacks visual appeal and simplicity

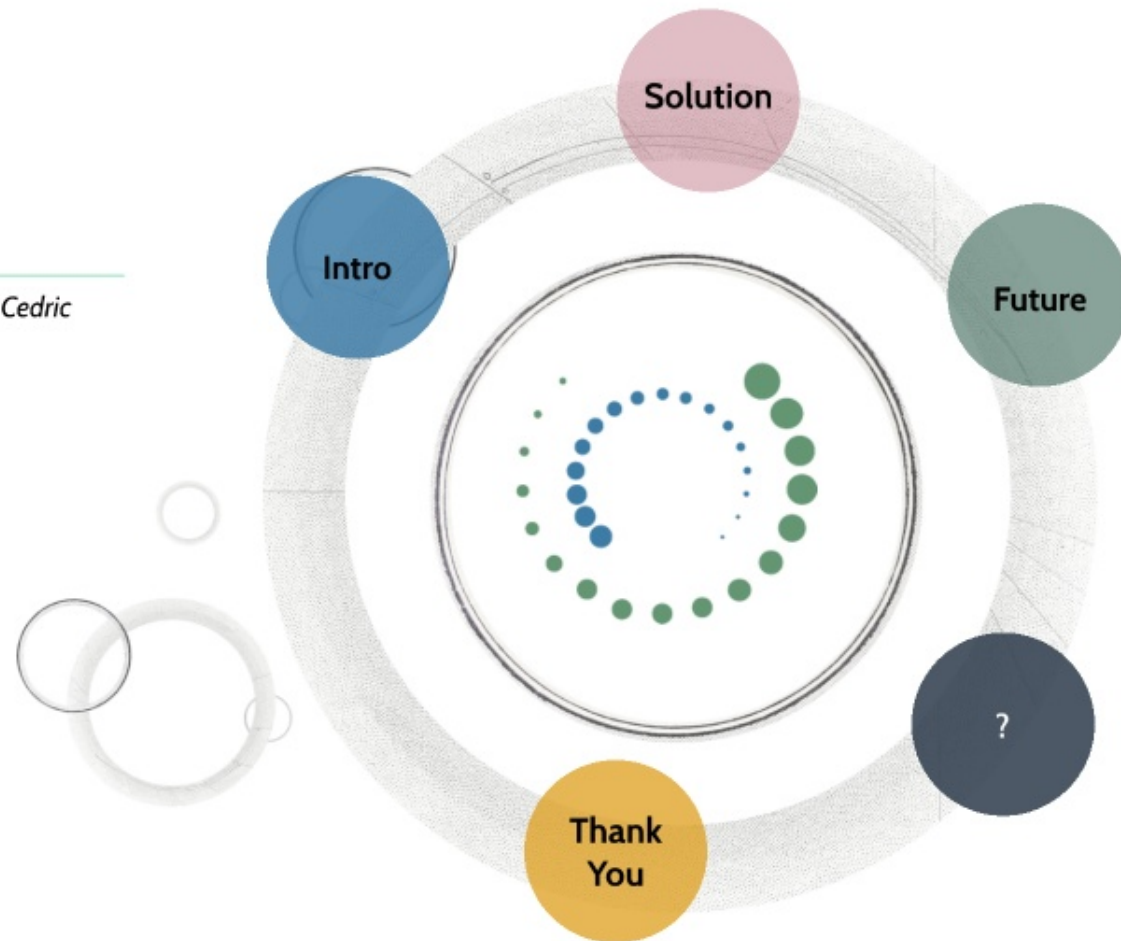

Our vision

- To make the labour market more accessible and user-friendly
- "Help job seekers to explore the labour market by making a graphic visualization"

Hattifnats

Albin, Vilma, Nina, Lucas and Cedric

Nina

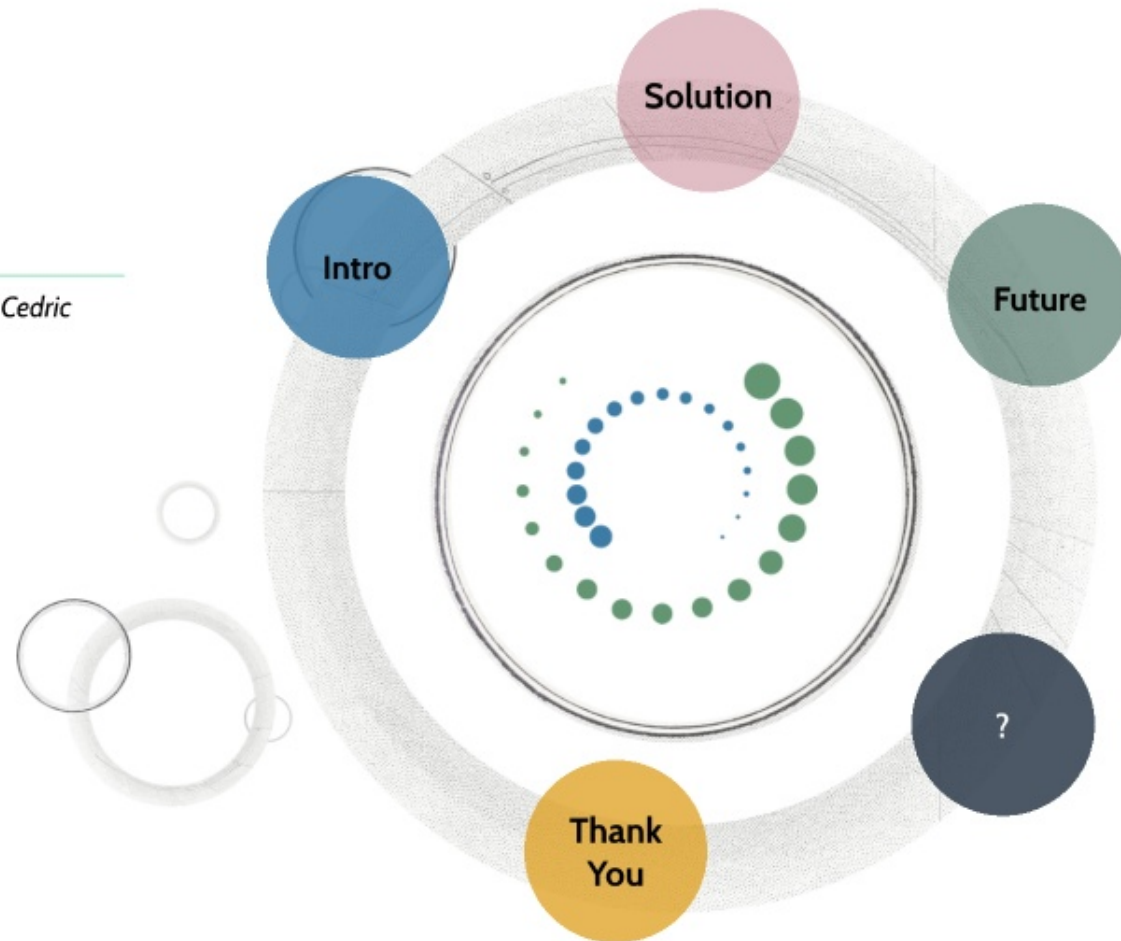

Our Solution

Nina - an interactive application to explore suitable jobs

- Surge in interactive applications
- Quick and easy to use
- Graphically appealing

Hattifnats

Albin, Vilma, Nina, Lucas and Cedric

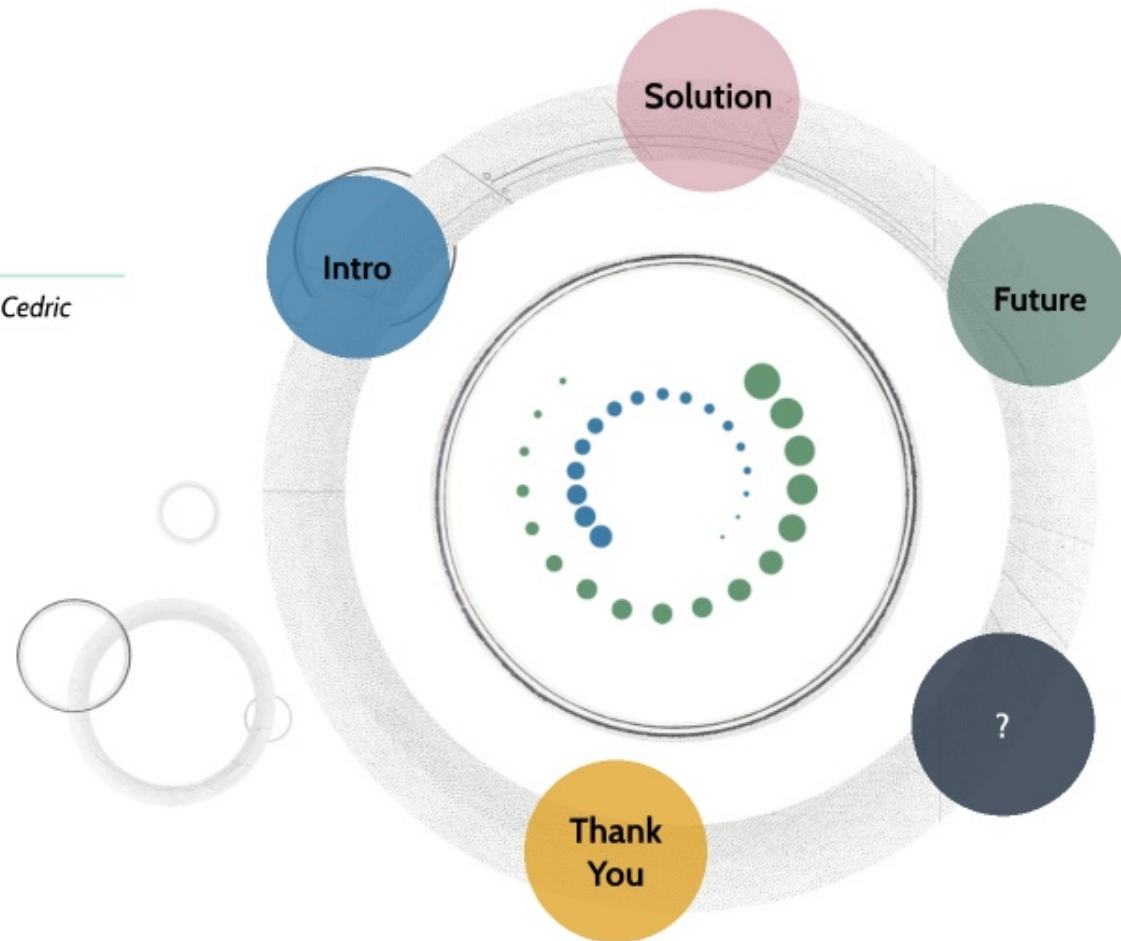

Further Development

- Google Voice Assistant
